SUMMARY

A data scientist with more than 2 years of experience in the field of processing, analyzing, and visualizing data with working experience in R, Python, SQL and other technologies. During my professional career, I acquired solid experience in advanced modeling and database architecture. Moreover, I have basic experience in developing Web applications using Python/Django.

EDUCATION

2019-2021

MSc Quantitative Finance,
WU Vienna, Vienna,
Austria

2017-2018

(Erasmus Exchange) Finance,
KU Leuven, Leuven,
Belgium

2015-2019

BSc Economics,
University of Ljubljana, Ljubljana,
Slovenia

SKILLS

Data analysis: Python, R, SAS, STATA

Web applications: Django, Flask

Data bases: SQL

*Preparing for Google Cloud
Certification

LANGUAGES

English: C2

Slovenian: C2

Croatian/Serbian: C2

German: B2

French: B1

Dutch: A2

EXPERIENCE

07/2021 – Present (3 months)

Leuven, Belgium

Data Scientist • Temporary contract • AB InBev SA/NV

Data Scientist Intern • Internship • AB InBev SA/NV

03/2020 – 03/2021 (13 months)

Vienna, Austria

Risk Analyst • Student Job • Sberbank Europe AG

03/2018 – 03/2019 (13 months)

Ljubljana, Slovenia

Financial Analyst • Student Job • NLB Skladi d.o.o.

My main tasks were designing/conducting experiments,
automating reports, and visualizing data.

PROJECTS

- OeNB University project – Researching the predictive power of ML algorithms
- Data4Good – Visualizing analyzed data from the refugee crisis – 2nd place - 2017

LEADERSHIP

- Team Lead @ OeNB University project – Researching the predictive power of ML algorithms.
